

Monthly Receptions Report

Monday 4 February to Sunday 3 March

| Viterra total | 4 February – 3 March 2019* | Total 2018/19 harvest ** |
|----------------------|-----------------------------------|---------------------------------|
| | 11,705 tonnes | 3,994,998 tonnes |

Over 11,000 tonnes of grain were received into our network between 4 February to 3 March.

The majority of deliveries were in the Eastern region with over 7,000 tonnes received.

Viterra is currently reviewing our harvest operations to ensure we continuously improve our services for our grower customers.

As of 1 March, grain delivered to Viterra sites will be received under the Post Harvest Delivery procedure. The Post Harvest Delivery Procedure is implemented to ensure grain is fit for purpose and that grain meets the needs of customers and export markets.

We are working closely with buyers to facilitate movements of grain. In the past month Viterra loaded more than 2500 trucks to supply domestic end users in South Australia, New South Wales and Victoria. Five trains have been loaded with wheat and barley destined for various areas on the east coast.

We are also working with export customers, with a shipment of lentils from Port Adelaide and shipments of various commodities from our Port Lincoln terminal in February.

| Western region receipts | 4 February – 3 March 2019* | Total 2018/19 harvest ** |
|--------------------------------|-----------------------------------|---------------------------------|
| | 3,043 tonnes | 1,932,480 tonnes |

| Central region receipts | 4 February – 3 March 2019* | Total 2018/19 harvest ** |
|--------------------------------|-----------------------------------|---------------------------------|
| | 1,213 tonnes | 1,557,401 tonnes |

| Eastern region receipts | 4 February – 3 March 2019* | Total 2018/19 harvest ** |
|--------------------------------|-----------------------------------|---------------------------------|
| | 7,449 tonnes | 505,117 tonnes |

Disclaimer

* This data is subject to variation due to individual site operations and the timing of reports.

** The total 2018/19 data includes grain received into Viterra's storage and handling network since 8 October 2018.

*** Eastern region data includes Inner Harbour and Victorian sites.
