

# MONTHLY RECEIVALS REPORT

**Monday 2 April to Sunday 6 May 2018**

<b>Viterra total</b>	<b>2 Apr – 6 May 2018*</b>	<b>Total 2017/18 harvest**</b>
	<b>4,231 tonnes</b>	<b>5,666,207 tonnes</b>

About 4,000 tonnes of grain was received into the Viterra network over the past month, with total receivals for 2017/18 sitting at 5.6 million tonnes.

Viterra has shipped more than 3 million tonnes of grain out of South Australia so far this season, for 11 different exporters headed to 19 overseas destinations.

Looking to the 2018/19 harvest, Viterra has released its preliminary segregation plan for growers to provide feedback.

Viterra will work closely with growers as they commence seeding and as the season progresses to ensure segregations match what is being grown in each region.

Of particular note is the increase to Spartacus and Compass segregations to reflect growers' shift towards these varieties as a result of their recent malt accreditation.

Segregations are also planned to maximise the elevation capacity and minimise overall turnaround times across the network.

Growers can visit the [Viterra website](#) to view the plan and give feedback through their regional office.

<b>Western region receivals</b>	<b>2 Apr – 6 May 2018*</b>	<b>Total 2017/18 harvest**</b>
	<b>152 tonnes</b>	<b>1,554,765 tonnes</b>

<b>Central region receivals</b>	<b>2 Apr – 6 May 2018*</b>	<b>Total 2017/18 harvest**</b>
	<b>1,289 tonnes</b>	<b>2,762,498 tonnes</b>

<b>Eastern region receivals***</b>	<b>2 Apr – 6 May 2018*</b>	<b>Total 2017/18 harvest**</b>
	<b>2,790 tonnes</b>	<b>1,348,944 tonnes</b>

**Disclaimer**

\* This data is subject to variation due to individual site operations and the timing of reports.

\*\* The total 2017/18 data includes grain received into Viterra's storage and handling network since 25 September 2017.

\*\*\*Eastern region data includes Inner Harbour and Victorian sites.
