

# Monthly receivals report

Monday 3 February to Sunday 1 March

	3 February – 1 March 2020	Total 2019/20 harvest**
<b>Viterra total receivals*</b>	<b>16,146 tonnes</b>	<b>3,965,234 tonnes</b>
Western region receivals	3,210 tonnes	1,586,119 tonnes
Central region receivals	8,632 tonnes	1,654,414 tonnes
Eastern region receivals***	4,304 tonnes	724,701 tonnes

We received over 16,000 tonnes of grain into our network in the past month, the majority of which were delivered into our Central region.

During February, larger Viterra sites were open to offer growers the chance to deliver before our [post harvest delivery procedure](#) came into effect on 1 March.

Sites are now open by appointment only and growers can contact their regional office to arrange a delivery.

Viterra has been busy moving stock to the east coast and international markets in the past month. The fast pace that we are outturning grain reflects the strong demand for South Australian grain in our network.

Compared to the same time last year, we have seen a significant increase in shipping and rail outturns and road movements continue to more than 80 different end use destinations.

**Disclaimer**

\*This data is subject to variation due to individual site operations and the timing of reports.

\*\*The total 2019/20 data includes grain received into Viterra's storage and handling network since 08 October 2019.

\*\*\*Eastern region data includes Inner Harbour and Victorian sites.
