

Weekly Harvest Report

Week ending 2 December 2018

Viterra total	26 November – 2 December 2018*	Total 2018/19 harvest**
	361,487 tonnes	1,988,157 tonnes

Last week 361,000 tonnes of grain were delivered into the Viterra network. This takes our total receipts for the 2018/19 harvest up to 1,988,000 tonnes.

We received the most grain over the weekend when close to 90,000 tonnes were delivered on both Saturday and Sunday, the majority of which were delivered into the Western region.

Western region receipts	26 November – 2 December 2018*	Total 2018/19 harvest**
	183,425 tonnes	886,940 tonnes

Scattered rain at the start of the week slowed activity in the region, but receipts picked up with the warmer weather later in the week. 130,000 tonnes of the total 180,000 tonnes received for the week were delivered over Friday, Saturday and Sunday.

Deliveries of wheat are increasing as growers finish up their barley harvest. There has also been an increase in pulses being delivered as a result of the cooler weather.

Central region receipts	26 November – 2 December 2018*	Total 2018/19 harvest**
	111,070 tonnes	914,439 tonnes

111,000 tonnes were received in the Central region last week, of which the majority were received into sites in the mid north, down to Roseworthy and the Yorke Peninsula.

Receipts into the region increased towards the end of the week after a slower start, but windy conditions reduced deliveries on Sunday.

Eastern region receipts***	26 November – 2 December 2018*	Total 2018/19 harvest**
	66,993 tonnes	186,778 tonnes

The Eastern region received nearly 67,000 tonnes which was the busiest week for the region so far this harvest. Canola the most delivered commodity.

The Eastern region's receipts for the 2018/19 harvest are at 187,000 tonnes.
