

Wheat Variety Codes Southern Region 2023/2024

Wheat Quality Australia has implemented Industry wide variety codes that can be used by all parties. Listed here are the new codes as well as the legacy code, where a new code is not listed use the legacy code. Varieties approved for receipt into Viterra storages that are not listed, will be received as SFW1 or FED1 grades only. If the variety can not be found in SIMS and is not listed contact the Laboratory. There are varietal restrictions in the grading of wheat based on processing and end use performance. The highest grade possible is listed against each variety.

Variety	Variety Code		Grade	Variety	Variety Code		Grade	Variety	Variety Code		Grade	Variety	Variety Code		Grade
	New	Legacy			New	Legacy			New	Legacy			New	Legacy	
Anapurna	W614		SFW1	Denison	W621		APW1	Kord CL Plus	W506	K23	H1	Spear	W135	S7	ASW1
